Low harmonic drive,  
Altivar 61 Plus-LH  
“Ready to use”

## Altivar 61 Plus-LH

### Easy reduction of harmonics

The Altivar 61 Plus-LH (Low Harmonic) offer has been designed with harmonic filtering to suit applications requiring a very low harmonic level (THDI 5%).

The enclosures are supplied as IP23 or IP54 ready-assembled and ready to connect, thus offering a simple and economical “ready to use” solution which keeps setup time to a minimum.

- Wide power range from 55 to 630 kW for 380...415 V supply voltage
- Maximum motor power maintained in the event of a weak line supply by boosted DC voltage
- Power factor ( $\cos \Phi \sim 1$ ) independent of load or energy direction
- Configurable energy recovery onto the line supply, for example for an installation with diesel generator
- Line supply short-circuits tolerated up to 100 kA

*Pour plus d'informations, voir page 27*

## Altivar 32

More than 150 application-specific functions

The Altivar 32 range of variable speed drives controls asynchronous and synchronous motors rated from 0.18 to 15 kW operating in open loop mode in complex machines:

- Compact, vertical and slim format (45 mm)
- Integrated function blocks for creating simple control system functions (timers, counters, comparators, etc.)
- Machine safety functions integrated as standard (STO, SLS, SS1)
- Open design: communicates with most industrial networks

*For more information, see page 18*

## Lexium 32

Inspired by Simplicity

The Lexium 32 servo drive range (0.15 to 7 kW) is a drive system designed for applications where high precision and dynamic positioning are critical:

# SoMove and SoMove Mobile

## User-friendly and efficient

**SoMove** is a common setup software tool for PCs, designed for Schneider Electric's latest motor control devices.

- Available as a free download from [www.schneider-electric.com](http://www.schneider-electric.com), SoMove allows you to prepare drive configuration files and set parameters, while making maintenance easier.
- Compatible with communication tools, such as Multi-Loader, Simple Loader, remote display terminals, etc.

**SoMove Mobile** is an application for mobile phones:

- Remote configuration or modification of Altivar 32 variable speed drives, Lexium 32 servo drives and many products from the Altivar range
- File and data exchange via Bluetooth, USB, e-mail, MMS, etc.

For more information, see page 50

## Altistart 22

### Integrated bypass function

The Altistart 22 range of compact soft start/soft stop units for pumps, fans, conveyors and compressors is designed for infrastructure and industrial applications.

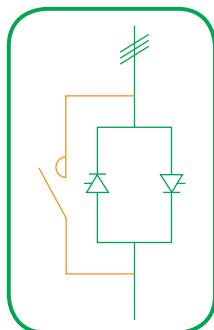

- Integrated bypass function for controlled starting and stopping, using both voltage and torque, of three-phase squirrel cage asynchronous motors
- Power ratings between 4 and 400 kW

With the Altistart 22 range driving your applications, you can:

- Cut your operating costs
- Reduce the number of components you need to manage (multifunction products)
- Control temperature rises due to its low heat dissipation
- Simplify wiring (6 cables instead of 12)
- Protect your electrical installation
- Save space in your enclosures with a fully equipped product

For more information, see page 10

## Altivar 212 for HVAC\*

### Save up to 70% on your energy bills\*\*

Altivar 212, variable speed drive dedicated to HVAC

Designed for pumps, fans and compressors, the new generation of Altivar 212 drives optimises the performance of motors rated from 0.75 to 75 kW (1 to 100 hp).

- Green Installation due to the Reduced Harmonic Technology (THDI <35%)
- Energy Efficient with lower line current thanks to its innovative technology (C-Less)
- Ready for Building Management System with 4 embedded protocols: Modbus, Bacnet, Apogee FLN, Metasys N2.
- Performance Oriented with dedicated functions: Flow/Pressure compensation, Energy Saving mode, Motor noise reduction...
- Oriented on Building protection (Fire mode, Damper control, Mechanical shock suppression)
- Easy and Fast configuration with remote graphic display terminal, Multi loader, Bluetooth...
- Preventive maintenance with Fault management, Automatic restart...
